

How to Make a Church App

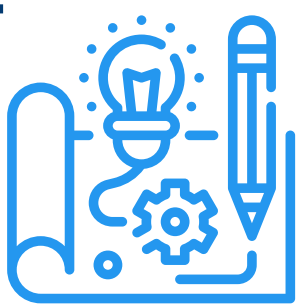

7 STEPS

1 Planning

Determine what you want the app to do and what questions it will answer for your members

2

PLAY WITH PROTOTYPES

Start making mock-ups of your church app. Add very basic versions of the content you know needs to be in it and lay it out a few different ways to see what works.

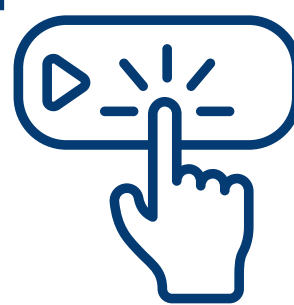

3

DESIGN

Add the content and make it look beautiful. Good design encourages better interactions between users and the app.

4

CALLS TO ACTION

What do you want app users to do in the app? Add a call to action for your church's Next Steps.

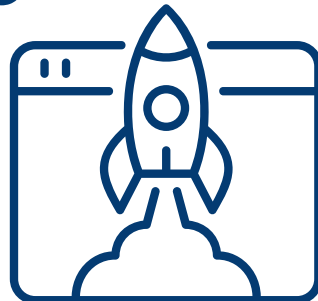

5

TEST DRIVE

Before a full release, have your leaders download the app and test it out. Their feedback could help improve the overall quality.

6

LAUNCH

Launch it loudly!

This does not have to be a complicated process. Click the link below to learn how to successfully promote your church app

7

KEEP IT FRESH

Add updated content regularly.

Keep your members up-to-date on the latest church news so they stay on mission.

\$1035

The average amount churches save yearly by using Church Connect for their church app.

The Best Church App Builder

Church Connect is the FREE church app built into your ChurchTrac account with easy customization for branding and design
